

SATYAJIT BEHERA

SOFTWARE DEVELOPER

Passionate about web development and coding! As a BCA final-year student, I've built projects like responsive websites, ecommerce platforms, and anime streaming sites using HTML, CSS, JavaScript, C, C++, Java, Python, and databases. Always eager to learn and grow in both front-end and back-end development, I'm excited to tackle new challenges and apply my skills to real-world problems. Let's connect and collaborate!
